

QUALITY POLICY

At CMMI, we are committed to engaging in high-quality research and innovation activities and projects and providing high-quality products and services that meet or exceed our clients', partners' and other stakeholders' expectations. We achieve this by implementing and maintaining a Quality Management System in accordance with ISO 9001:2015, that will form part of an Integrated Management System

The scope of CMMI activities under ISO 9001:2015 is: Centre of Excellence in Marine and Maritime Research, Technology Development, Innovation, Education and Training.

Our quality objectives are to:

- Ensure that our research and innovation activities in the marine and maritime sectors are based on sound scientific principles and methods and are conducted in an ethical and responsible manner.
- Continuously improve the quality and relevance of our research, innovation and educational activities, projects, products and services to enhance quality, increase efficiency and meet the changing needs of the marine and maritime sectors.
- Ensure timely delivery of our products and services and timely submission of project deliverables, while maintaining the highest standards of quality and integrity.
- Comply with all applicable Statutory and legal/ regulatory requirements, as well as the requirements of authorities and funding agencies to which we are required to report to.
- Continuously develop the skills and knowledge of our employees to enhance their ability to engage in high-quality research and innovation activities/ projects and provide high-quality products and services.

We are committed to complying with ISO 9001:2015 and continually improving the effectiveness of our Quality Management System. We will allocate the necessary resources to achieve our quality objectives and ensure the involvement and commitment of all employees.

We will communicate this quality policy statement to all our employees and other interested parties and make it available to the public. We will review this policy statement regularly to ensure its ongoing suitability and effectiveness
